► Read the passage carefully.

READ · read carefully — you will answer questions about this

- 1 Ants are small insects that live together in large groups called colonies. A colony can have thousands of ants living and working as a team. Each ant has an important job to do. Some ants find food, some ants build tunnels, and some ants care for babies. Even though ants are very small, they accomplish big things when they work together.
- 2 When a scout ant finds food, it leaves a special scent trail for other ants to follow. Other ants smell the trail and rush to help. Many ants line up together and carry the food back home. A piece of food that one ant could never move becomes easy to carry when many ants work as a team. This teamwork helps the whole colony survive and grow strong.
- 3 Builder ants dig tunnels and rooms underground. These tunnels become highways for other ants to travel through. The rooms store food for winter and give babies safe places to grow. All the ants work together without arguing about who should dig where. They trust each other and focus on helping the colony.
- 4 Worker ants care for baby ants called larvae. They feed them, keep them clean, and protect them from danger. When babies grow up, they join the team and help with all the work. This cycle continues because ants understand that taking care of young ants means the colony stays healthy and strong. Every ant, big or small, does its part to make the colony successful.

ANSWER KEY

How Ants Work Together

WISDOM

Teamwork and trust help individuals accomplish great things together.

preceptor reads aloud

DO THIS

▶ Tell the most important parts in your own words.

SUMMARY FRAME • fill in each part

Who?

Ants in a colony

Wanted what?

To survive and build a strong, healthy colony together

What happened?

Scout ants find food and leave trails for others to follow. Builder ants dig tunnels and rooms. Worker ants care for baby ants. Every ant does its important job.

How did it end?

The colony thrives because every ant works together and trusts each other, showing that teamwork makes the group strong and successful.

WRITE A SUMMARY • use your frame to write 2-3 sentences
