

Name: _____

Metric units of capacity: liters and milliliters

Grade 3 Measurement Worksheet

Match the proper unit of measurement with the objects by drawing lines from the objects to the unit.

Note: We measure smaller containers (like cups or spoons) in milliliters (mL) and bigger containers in liters (L).

A teacup

A gallon bottle

A pitcher

A wine glass

Milliliters

Liters

A juice box

A spoon

A mug

A bath tub
