

## MATCH & DRAW

Match Equations to Answers

Objective: *Draw a line from each one on the left to its match on the right.*

**DO THIS** Draw a line to match each one on the left to the right.

**HOW TO MATCH** Find the pair, then draw a line.

Each one on the left has exactly one match on the right.

**DRAW THE LINES** Connect each pair.

$$72 - 15 = \bullet \quad \bullet \quad 57$$

$$79 - 71 = \bullet \quad \bullet \quad 30$$

$$96 - 66 = \bullet \quad \bullet \quad 46$$

$$93 - 47 = \bullet \quad \bullet \quad 8$$

$$96 - 53 = \bullet \quad \bullet \quad 43$$
