

PATTERNS & LOGIC

Reasoning Lab • Rules, Machines, and Patterns

Objective: *Find the rule, continue the pattern, and run the subtraction machine.*

DO THIS Find the rule, continue each pattern, and run the subtraction machine.

FIND THE RULE A pattern changes by the same amount each step.

EXAMPLE What is the rule?

99, 96, 93, 90, 87

Rule: subtract 3 each time.

CONTINUE THE PATTERN Write the next two numbers and the rule.

1

95, 85, 75, ,

Rule: ____

2

95, 90, 85, ,

Rule: ____

3

90, 80, 70, ,

Rule: ____

SUBTRACTION MACHINE Subtract 3 from each IN. Fill the OUT column.

IN	OUT (-3)
8	
13	
18	
71	

Every number that goes IN comes OUT 3 smaller. The rule is the same every time.

ODD ONE OUT Circle the number that does not fit the rule (subtract 2).

10, 8, 6, 5, 4, 2 — it breaks the pattern.

The rule was: subtract the same amount different each time

PATTERNS & LOGIC

Reasoning Lab • Rules, Machines, and Patterns

Objective: *Find the rule, continue the pattern, and run the subtraction machine.*

DO THIS Find the rule, continue each pattern, and run the subtraction machine.

FIND THE RULE A pattern changes by the same amount each step.

EXAMPLE What is the rule?

99, 96, 93, 90, 87

Rule: subtract 3 each time.

CONTINUE THE PATTERN Write the next two numbers and the rule.

1

95, 85, 75, 65, 55

Rule: subtract 10

2

95, 90, 85, 80, 75

Rule: subtract 5

3

90, 80, 70, 60, 50

Rule: subtract 10

SUBTRACTION MACHINE Subtract 3 from each IN. Fill the OUT column.

IN	OUT (-3)
8	5
13	10
18	15
71	68

Every number that goes IN comes OUT 3 smaller. The rule is the same every time.

ODD ONE OUT Circle the number that does not fit the rule (subtract 2).

10, 8, 6, 5, 4, 2 – it breaks the pattern.

TEACHER NOTES Answer key & guidance

Answers: constant-difference patterns
Common error: Assuming the rule changes between steps

Strategy: Find the constant difference between terms
Prompt: "How much smaller is each number than the one before?"

The rule was: subtract the same amount different each time
