

MIXED REVIEW

USE WHAT YOU KNOW

Solve each one. Use any strategy you know.

1 Place Value

Write the number.

$500 + 10 + 7 = \underline{\quad}$

$500 + 70 + 4 = \underline{\quad}$

$300 + 20 + 4 = \underline{\quad}$

$400 + 70 + 1 = \underline{\quad}$

2 Add

Add the biggest place first, then the rest.

$44 + 25 = \underline{\quad}$

$58 + 14 = \underline{\quad}$

$38 + 28 = \underline{\quad}$

$57 + 28 = \underline{\quad}$

3 Subtract

If the top number is too small, borrow from your neighbor.

$55 - 15 = \underline{\quad}$

$78 - 36 = \underline{\quad}$

$35 - 11 = \underline{\quad}$

$71 - 44 = \underline{\quad}$

4 Multiply

Think of equal groups.

$10 \times 4 = \underline{\quad}$

$10 \times 9 = \underline{\quad}$

$2 \times 6 = \underline{\quad}$

$5 \times 8 = \underline{\quad}$

5 Divide

Think: what times the small number makes the big one?

$10 \div 2 = \underline{\quad}$

$8 \div 2 = \underline{\quad}$

$6 \div 2 = \underline{\quad}$

$16 \div 2 = \underline{\quad}$

6 Story Problem

On the first day 449 people came to hear Jesus teach. On the next day 380 people came. How many people came in all?

Answer: _____

This week I: ☐ got it ☐ almost ☐ need practice
