

## MATCH & DRAW

Match Equations to Answers

Objective: Draw a line from each one on the left to its match on the right.

**DO THIS** Draw a line to match each one on the left to the right.

**HOW TO MATCH** Find the pair, then draw a line.

Each one on the left has exactly one match on the right.

**DRAW THE LINES** Connect each pair.

$$74 - 16 = \bullet \quad \bullet \quad 23$$

$$72 - 4 = \bullet \quad \bullet \quad 68$$

$$70 - 26 = \bullet \quad \bullet \quad 63$$

$$67 - 4 = \bullet \quad \bullet \quad 44$$

$$87 - 64 = \bullet \quad \bullet \quad 58$$
