

# ADDITION FACTS

## Doubles & Sums to 20

**Objective:** Add small numbers. Learn your doubles so you just know them.

### INSTRUCTION

Count both groups, then write how many in all. Learn your doubles so you just know them!

### EXAMPLE

A double is a number added to itself.

$$3 + 3 = 6$$

$$5 + 2 = 7$$

$$4 + 4 = 8$$

### INDEPENDENT PRACTICE

Write each sum. Watch for your doubles!

1.  $1 + 1 = \square$

2.  $2 + 2 = \square$

3.  $3 + 3 = \square$

4.  $4 + 4 = \square$

5.  $5 + 5 = \square$

6.  $6 + 6 = \square$

7.  $7 + 7 = \square$

8.  $8 + 8 = \square$

9.  $9 + 9 = \square$

10.  $10 + 10 = \square$

11.  $4 + 1 = \square$

12.  $8 + 10 = \square$

13.  $9 + 2 = \square$

14.  $5 + 6 = \square$

15.  $7 + 1 = \square$

16.  $2 + 5 = \square$

17.  $10 + 7 = \square$

18.  $6 + 3 = \square$

19.  $4 + 2 = \square$

20.  $3 + 10 = \square$

21.  $3 + 5 = \square$

22.  $10 + 8 = \square$

23.  $1 + 7 = \square$

24.  $4 + 7 = \square$

25.  $6 + 2 = \square$

26.  $10 + 6 = \square$

27.  $4 + 9 = \square$

28.  $5 + 7 = \square$

29.  $2 + 6 = \square$

30.  $9 + 10 = \square$

I solved by:  counted on  knew my double  used a ten frame
