

Completing a whole number (mixed numbers)

Grade 4 Fractions Worksheet

Find the missing fraction or mixed number:

1) $1\frac{9}{10} + \underline{\hspace{2cm}} = 2$

2) $1\frac{5}{11} + \underline{\hspace{2cm}} = 2$

3) $3\frac{5}{6} + \underline{\hspace{2cm}} = 5$

4) $1\frac{4}{7} + \underline{\hspace{2cm}} = 2$

5) $3\frac{3}{4} + \underline{\hspace{2cm}} = 5$

6) $5\frac{1}{2} + \underline{\hspace{2cm}} = 9$

7) $6\frac{2}{4} + \underline{\hspace{2cm}} = 8$

8) $3\frac{1}{5} + \underline{\hspace{2cm}} = 5$

9) $5\frac{1}{3} + \underline{\hspace{2cm}} = 8$

10) $6\frac{2}{3} + \underline{\hspace{2cm}} = 9$

11) $4\frac{4}{12} + \underline{\hspace{2cm}} = 5$

12) $3\frac{3}{6} + \underline{\hspace{2cm}} = 5$

13) $2\frac{2}{8} + \underline{\hspace{2cm}} = 3$

14) $4\frac{1}{5} + \underline{\hspace{2cm}} = 5$

15) $2\frac{2}{2} + \underline{\hspace{2cm}} = 4$

16) $1\frac{2}{2} + \underline{\hspace{2cm}} = 3$
