

MIXED REVIEW

USE WHAT YOU KNOW

Solve each one. Use any strategy you know.

1 Place Value

Write the number.

$800 + 50 + 6 = \underline{\hspace{2cm}}$

$800 + 70 + 2 = \underline{\hspace{2cm}}$

$600 + 90 + 1 = \underline{\hspace{2cm}}$

$300 + 70 + 7 = \underline{\hspace{2cm}}$

2 Add

Add the biggest place first, then the rest.

$60 + 26 = \underline{\hspace{2cm}}$

$66 + 34 = \underline{\hspace{2cm}}$

$22 + 63 = \underline{\hspace{2cm}}$

$31 + 60 = \underline{\hspace{2cm}}$

3 Subtract

If the top number is too small, borrow from your neighbor.

$82 - 23 = \underline{\hspace{2cm}}$

$81 - 30 = \underline{\hspace{2cm}}$

$44 - 21 = \underline{\hspace{2cm}}$

$86 - 60 = \underline{\hspace{2cm}}$

4 Multiply

Think of equal groups.

$5 \times 5 = \underline{\hspace{2cm}}$

$5 \times 3 = \underline{\hspace{2cm}}$

$2 \times 3 = \underline{\hspace{2cm}}$

$5 \times 9 = \underline{\hspace{2cm}}$

5 Divide

Think: what times the small number makes the big one?

$16 \div 2 = \underline{\hspace{2cm}}$

$10 \div 2 = \underline{\hspace{2cm}}$

$18 \div 2 = \underline{\hspace{2cm}}$

$20 \div 5 = \underline{\hspace{2cm}}$

6 Story Problem

10 loaves were shared equally among 5 baskets. How many loaves went in each basket?

Answer: _____

Rejoice in the Lord always.
Philippians 4:4

This week I: ☐ got it ☐ almost ☐ need practice
