Two sisters, Francine and Sam, were playing with their colorful building blocks at their house.

| | | |
|---|--|---|
| <p>Francine stacked building blocks to form the shape of house. $\frac{3}{8}$ of the building blocks were blue. Put a check mark beside the house Francine built.</p> |  |  |
| <p>Sam stacked building blocks. $\frac{4}{6}$ of the blocks were green and the rest were red. Francine then removed 1 green block. Put a check mark beside the stack Sam built.</p> |  |  |
| <p>The building block pattern showed them which colors and the number of blocks to use. $\frac{2}{9}$ were red, $\frac{4}{9}$ were blue and the rest were yellow. Put a check</p> |  |  |
