

PATTERNS & LOGIC

Reasoning Lab • Rules, Machines, and Patterns

Objective: *Find the rule, continue the pattern, and run the subtraction machine.*

DO THIS Find the rule, continue each pattern, and run the subtraction machine.

FIND THE RULE A pattern changes by the same amount each step.

EXAMPLE What is the rule?

99, 97, 95, 93, 91

Rule: subtract 2 each time.

CONTINUE THE PATTERN Write the next two numbers and the rule.

1

97, 94, 91, ,

Rule: ____

2

97, 92, 87, ,

Rule: ____

3

96, 91, 86, ,

Rule: ____

SUBTRACTION MACHINE Subtract 5 from each IN. Fill the OUT column.

IN	OUT (-5)
12	
19	
57	
94	

Every number that goes IN comes OUT 5 smaller. The rule is the same every time.

ODD ONE OUT Circle the number that does not fit the rule (subtract 2).

10, 8, 6, 5, 4, 2 — it breaks the pattern.

The rule was: subtract the same amount different each time

PATTERNS & LOGIC

Reasoning Lab • Rules, Machines, and Patterns

Objective: *Find the rule, continue the pattern, and run the subtraction machine.*

DO THIS Find the rule, continue each pattern, and run the subtraction machine.

FIND THE RULE A pattern changes by the same amount each step.

EXAMPLE What is the rule?

99, 97, 95, 93, 91

Rule: subtract 2 each time.

CONTINUE THE PATTERN Write the next two numbers and the rule.

1

97, 94, 91, 88, 85

Rule: subtract 3

2

97, 92, 87, 82, 77

Rule: subtract 5

3

96, 91, 86, 81, 76

Rule: subtract 5

SUBTRACTION MACHINE Subtract 5 from each IN. Fill the OUT column.

IN	OUT (-5)
12	7
19	14
57	52
94	89

Every number that goes IN comes OUT 5 smaller. The rule is the same every time.

ODD ONE OUT Circle the number that does not fit the rule (subtract 2).

10, 8, 6, 5, 4, 2 – it breaks the pattern.

TEACHER NOTES Answer key & guidance

Answers: constant-difference patterns
Common error: Assuming the rule changes between steps

Strategy: Find the constant difference between terms
Prompt: "How much smaller is each number than the one before?"

The rule was: subtract the same amount different each time
