

Waiting with Patience

Waiting can be hard, but God is always working. He sees what we cannot see. He knows the right time for every good thing. When we wait with patience, we show that we trust Him. He helps us when our hearts feel tired or our days feel slow. God is never late, and His plans are always good.

While we wait, God helps us grow. He teaches us to be kind, to be gentle, and to keep doing what is right. We can talk to Him, read His Word, and love the people around us. When we stay patient and faithful, we shine His light. We can trust Him in every season, because He is with us all the way.
