

Nature Colors and Patterns Hunt

Look for and observe:

1. A natural stripe

2. A natural spot

3. A spiral shape

4. Something symmetrical

5. A repeating pattern

6. Three shades of green

7. Two different shades of brown

8. A bright natural color

9. A soft or muted color

10. A leaf with more than one color

11. A pattern made by veins

12. A pattern made by petals

13. A pattern made by bark

14. A pattern made by seeds or cones

15. A shape that repeats

16. A line that curves

17. A line that zigzags

18. A pattern in a feather or wing

19. Something tiny with beautiful detail

20. Something that makes you stop and wonder

Observe only. Do not collect nests, eggs, living insects, or unknown plants.

Nature Colors and Patterns Companion Activities

After your hunt, respond in these ways:

1 Pattern Printing

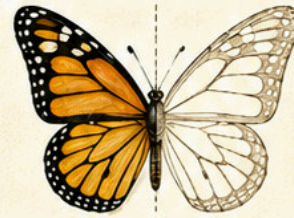

Press leaves or safe natural textures into paint to make prints.

2 Nature Color Wheel

Arrange colors you noticed around a simple color wheel.

3 Symmetry Art

Draw or create matching halves inspired by nature.

4 Spot, Stripe, Spiral Sort

Group items or drawings by pattern type.

5 Shade Matching

Compare light and dark shades of the same color.

6 Nature Mosaic

Arrange small safe finds into a pattern or picture.

7 Repeating Border Design

Create a border using repeated shapes or colors.

8 Pattern Sketchbook

Draw one natural pattern carefully.

9 Vein and Texture Rubbings

Make safe rubbings with paper and crayon.

10 Shape and Line Study

Sketch curves, zigzags, circles, and ovals you observed.

11 Favorite Pattern Reflection

Write which pattern stood out and why.

12 Thankfulness Response

Write one sentence thanking God for the beauty and order of creation.
