

Weather Watch

Look for and observe:

1. A sunny area

2. A shaded area

3. A puffy cloud

4. A thin cloud

5. A cloud with a clear shape

6. Wind moving leaves or grass

7. Something showing wind direction

8. A cool place

9. A warm place

10. A dry surface

11. A damp or wet surface

12. Dew or water droplets

13. A clear shadow

14. Something reflecting sunlight

15. Evidence of recent rain

16. Evidence of recent wind

17. A puddle or standing water

18. A patch of mud or soft ground

19. Something that shows the day is changing

20. Something that makes you stop and notice the weather

Observe carefully. Watch the weather from a safe place and avoid storms or unsafe conditions.

Weather Watch Companion Activities

After your weather watch, respond in these ways:

1 Weather Journal

Record the date, sky, wind, and temperature.

2 Cloud Sketch

Draw the clouds you observed.

3 Wind Direction Check

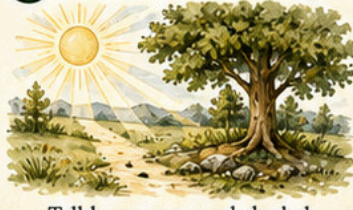

Use a ribbon or flag to notice which way the wind moves.

4 Shadow Trace

Trace one shadow and compare it later.

5 Sun and Shade Compare

Tell how sunny and shaded places felt different.

6 Rain Gauge Project

Use a simple container to measure rainfall.

7 Moisture Hunt Notes

List places that were dry, damp, or wet.

8 Weather Symbols Match

Match sun, cloud, rain, wind, and storm symbols.

9 Weather Wheel

Make a simple weather wheel for sunny, cloudy, windy, or rainy days.

10 Recent Weather Evidence

Write clues that show recent rain, wind, or sunshine.

11 Creation Reflection

Write how weather helps living things.

12 Thankfulness Response

Write one sentence thanking God for sun, rain, and seasons.
