

6 Farm & Storage Projects

Sturdy outdoor builds made from natural materials for carrying, storing, and organizing.

1 Willow Fish Creel

Weave willow into a narrow lidded creel.

Found Materials:
Willow rods, cordage.

Use:
For carrying fish, forage, or gathered food.

2 Cattail Storage Basket

Weave cattail leaves into a roomy storage basket.

Found Materials:
Dried cattail leaves.

Use:
For storing vegetables, laundry, or supplies.

3 Split-Wood Crate

Lash split saplings or thin boards into a rustic crate.

Found Materials:
Split saplings, branches, cordage.

Use:
For hauling produce, firewood, or tools.

4 Twig Herb Drying Frame

Make a light rectangular frame with hanging crosspieces.

Found Materials:
Twigs, straight branches, cordage.

Use:
For drying herbs, flowers, seed heads, or garlic.

5 Sapling Ladder

Lash sapling side rails and rungs into a simple ladder.

Found Materials:
Saplings, rungs, cordage.

Use:
For reaching lofts, platforms, or orchard work.

6 Dead Hedge Fence

Stack and weave brush between posts into a dense fence.

Found Materials:
Brush, branches, stakes.

Use:
For animal barriers, privacy, or wind protection.
