

6 Outdoor Home Projects

Useful natural-material builds for the yard, porch, entryway, and outdoor household use.

1 Driftwood Towel Rack

Hang towels or swimsuits to dry with this rustic rack made from beach driftwood.

Found Materials:
Driftwood branch, sturdy stakes or screws, twine or rope.

Use:
For towels, wet gear, or poolside drying.

2 Split-Wood Shoe Scraper

A simple scraper to clean muddy shoes before coming inside the house.

Found Materials:
Split logs or slabs, flat stones or gravel, smaller rocks.

Use:
Place at doors or steps to scrape off dirt.

3 Sapling Clothesline Frame

A sturdy frame for a clothesline made from straight saplings and natural cordage.

Found Materials:
Straight saplings, twine or rope, wooden stakes.

Use:
Hang laundry outside to dry and freshen naturally.

4 Branch Peg Rail

A natural peg rail for hanging hats, bags, or tools near the door or in the shed.

Found Materials:
Sturdy branch, shorter branch pegs, screws or twine.

Use:
Keep everyday items organized and within reach.

5 Stone Rain-Spout Splash Basin

Protect the foundation and add charm with a simple basin that catches rainwater at the spout.

Found Materials:
Flat stones, larger rocks, small gravel.

Use:
Catches and directs rainwater, reduces erosion and puddles.

6 Brushwood Privacy Screen

Create a natural screen for privacy or wind protection using woven brush.

Found Materials:
Flexible branches, upright stakes, twine or natural cord.

Use:
Adds privacy, blocks wind, and creates a natural backdrop.
