

6 Outdoor Furniture & Workstation Projects

Practical natural-material builds for seating, work, and everyday outdoor tasks.

1 Sapling Camp Table

Lash saplings into a sturdy table frame with a slatted top.

 Found Materials: straight saplings, flat branches, cordage.

 Use: for food prep, crafts, or camp work.

2 Willow Backrest Chair

Bend willow into a rustic chair frame with a woven seat.

 Found Materials: fresh willow rods, cross slats, cordage.

 Use: for comfortable outdoor seating.

3 Split-Log Kneeling Board

Smooth a split log into a low garden kneeler.

 Found Materials: split log, knife or adze, sand or sandstone.

 Use: for kneeling while weeding or planting.

4 Branch Potting Bench

Build a waist-high bench from branches and poles.

 Found Materials: branches, poles, flat slats, cordage.

 Use: for potting, sorting, and garden work.

5 Stone-and-Slab Garden Bench

Stack stones and top them with a flat slab.

 Found Materials: flat stones, stone slab or sturdy plank.

 Use: for seating in the garden or yard.

6 Forked-Stick Blanket Rack

Set forked uprights and add cross rails.

 Found Materials: forked branches, straight poles.

 Use: for airing blankets, rugs, or hides.
