

6 Kid-Friendly Garden Projects

Simple outdoor builds made from natural materials that children can make and use in the garden.

1 Twig Dibble Stick

A pointed planting stick for making seed holes in the soil.

Found Materials:
Sturdy twig or straight stick, smooth stone for shaping.

Use:
For planting seeds and bulbs.

2 Bark Seed Packet Holder

A simple folded bark pocket to carry and sort saved seeds.

Found Materials:
Bark sheet, cordage or grass ties.

Use:
For organizing seeds in the garden.

3 Reed Seed-Drying Mat

A flat woven mat for drying herbs or seeds in the sun.

Found Materials:
Reeds, cattail leaves, or grass blades.

Use:
For drying seeds, herbs, or flower petals.

4 Pinecone Seed-Start Pot

A tiny starter holder made by nesting a seed in a pinecone cup with moss or soil.

Found Materials:
Large pinecones, moss, soil, seeds.

Use:
For starting seeds and observing growth.

5 Pebble Watering Basin Ring

A ring of small stones around a plant to hold water at the roots.

Found Materials:
Smooth pebbles or small rocks.

Use:
For guiding water to garden plants.

6 Twig Strawberry Support Forks

Forked twigs placed under berry stems to lift fruit off damp soil.

Found Materials:
Forked twigs, small sticks.

Use:
For keeping strawberries cleaner and drier.
