

6 Nature Learning & Game Projects

Hands-on outdoor projects children can build for learning, sorting, counting, and play.

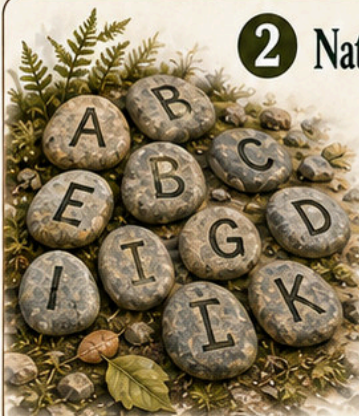

1 Acorn Mancala Board

Make a simple counting game board with paired cups or shallow holes.

Found Materials:
Acorns, bark cups or seed pods, flat board or bark base.

Use:
For counting and strategy play.

2 Nature Alphabet Stones

Collect stones and mark them with letters for word games.

Found Materials:
Smooth stones, charcoal or natural paint.

Use:
For spelling and reading practice.

3 Twig Memory Tile Set

Make a set of matching tiles using bark pieces or flat wood slices with leaf or symbol marks.

Found Materials:
Bark chips or wood slices, charcoal or berry stain.

Use:
For memory games.

4 Pebble Counting Tray

Arrange pebbles into sections on a bark or stick tray.

Found Materials:
Pebbles, bark base, twigs.

Use:
For counting, sorting, and math practice.

5 Bark Treasure Box

Fold and tie bark into a little box for nature finds.

Found Materials:
Bark sheet, root ties or grass cord.

Use:
For collecting small outdoor treasures.

6 Twig Geometry Shapes Set

Tie short sticks into triangles, squares, and other shapes.

Found Materials:
Short sticks, grass ties or string.

Use:
For learning geometry and pattern building.
