VOLUME

COUNT CUBES • MULTIPLY • ADD

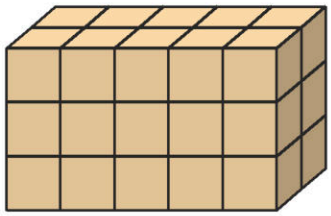

Volume is how many cubes fill it.

1 Count the cubes.

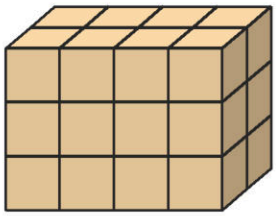

Count the unit cubes in each figure. Write the total.

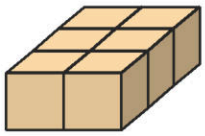

☐ cubic units

☐ cubic units

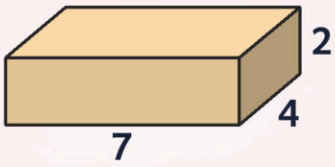

☐ cubic units

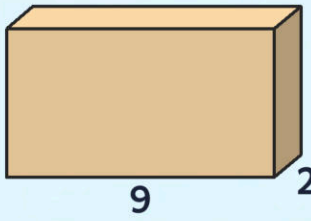

☐ cubic units

2 Use the formula.

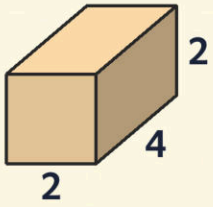

Find the volume of each rectangular prism using V = length × width × height.

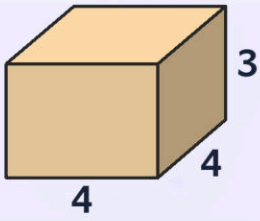

V = ☐ × ☐ × ☐ = ☐

V = ☐ × ☐ × ☐ = ☐

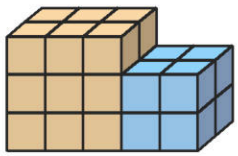

V = ☐ × ☐ × ☐ = ☐

V = ☐ × ☐ × ☐ = ☐

3 Two boxes together.

Find the total volume. You may count cubes or use the formula.

☐ + ☐ = ☐

4 Story.

Read and solve the problem.

Deborah builds a box of unit cubes 6 long, 2 wide and 5 high. How many cubes is that?

Answer: _____

> Let all your things be done with charity.
> *1 Corinthians 16:14*
