

## How to Make Ice Cream

*Read the short story. Then answer each question.*

### How to Make Ice Cream

Do you like ice cream? Maybe you always buy it at the store or from an ice cream shop, but did you know you can make your own ice cream at home?

First, gather your materials. You will need milk, sugar, and vanilla as the ingredients for the ice cream. You will also need some other materials to turn those ingredients into ice cream. The other materials are two zip-top plastic bags, ice, and salt. One of the zip-top plastic bags should be larger than the other. You might also want winter gloves or a towel to use later on!

In the smaller bag, combine 1 cup of milk, about 2 tablespoons of sugar, and  $\frac{1}{2}$  teaspoon of vanilla. Close the top up tightly! Use your hands to squish the bag to mix the ingredients, or shake the bag.

In the larger bag, combine between 2-4 cups of ice and about  $\frac{1}{3}$  cup of salt.
