

Completing a whole number

Grade 5 Fractions Worksheet

Find the missing fraction or mixed number.

1) $13\frac{\cdot}{\cdot} + \underline{\hspace{1cm}} = 24$

2) $64\frac{\cdot}{\cdot} + \underline{\hspace{1cm}} = 84$

3) $32\frac{\cdot}{\cdot} + \underline{\hspace{1cm}} = 63$

4) $25\frac{\cdot}{\cdot} + \underline{\hspace{1cm}} = 26$

5) $46\frac{\cdot}{\cdot} + \underline{\hspace{1cm}} = 70$

6) $12\frac{\cdot}{\cdot} + \underline{\hspace{1cm}} = 27$

7) $10\frac{\cdot}{\cdot} + \underline{\hspace{1cm}} = 55$

8) $75\frac{\cdot}{\cdot} + \underline{\hspace{1cm}} = 77$

9) $87\frac{\cdot}{\cdot} + \underline{\hspace{1cm}} = 88$

10) $46\frac{\cdot}{\cdot} + \underline{\hspace{1cm}} = 49$

11) $22\frac{\cdot}{\cdot} + \underline{\hspace{1cm}} = 36$

12) $37\frac{\cdot}{\cdot} + \underline{\hspace{1cm}} = 50$

13) $75\frac{\cdot}{\cdot} + \underline{\hspace{1cm}} = 76$

14) $56\frac{\cdot}{\cdot} + \underline{\hspace{1cm}} = 79$

15) $38\frac{\cdot}{\cdot} + \underline{\hspace{1cm}} = 51$

16) $15\frac{\cdot}{\cdot} + \underline{\hspace{1cm}} = 16$

Ethan is pouring sand into a sandbox that needs a total of 25 pounds of sand. He has already added $18\frac{\cdot}{\cdot}$ pounds. How many more pounds of sand does he need to add to reach the total amount?

Answer:
