

Fact and opinion

Grade 3 Reading Worksheet

If something is true or it really happened, it is a **fact** .
If something is what someone thinks or believes, it is an **opinion** .

Are these passages fact or opinion? Circle your answer and then explain your choice.

Passage #1:

Reading a book is better than watching a movie because you can use your imagination. When you read, you get to picture the characters and places in your own mind. Books also have more details than movies, so you get to know the story better. Movies are fun, but they move too fast and sometimes leave out important parts. If you want to enjoy a story fully, reading a book is the best choice!

Fact or Opinion ? (Circle one)

How do you know?

Passage #2:

Bees make honey by collecting nectar from flowers. They bring the nectar back to their hive and turn it into honey, which they store in honeycombs. Honey gives bees energy and helps them survive in the winter. Some people like to eat honey because it is sweet and can be used in tea, desserts and snacks. Without bees, there wouldn't be any honey!
