

Write topic sentences

Write a topic sentence for each of the paragraphs.

I would choose to read because I like to use my imagination. When I read, I can close my eyes and picture what the scenes look like! I would also choose to read because I'm only allowed to watch one hour of television a day. However, I can read as long as I want to! My last reason for choosing reading is that I can read anywhere. I love to climb trees and read outside. In conclusion, if I could choose reading or watching TV, I would choose reading.
